

STAFF REPORT

DATE: OCTOBER 16, 2012
 TO: HONORABLE MAYOR AND CITY COUNCIL
 FROM: ROD FOSTER, CITY MANAGER
 PREPARED BY: DAVID KOLK, ELECTRIC UTILITY DIRECTOR
 SUBJECT: PROFESSIONAL SERVICES AGREEMENT FOR ELECTRICAL ENGINEERING SERVICES

[Handwritten signature]

RECOMMENDED ACTION

It is recommended that the City Council approve the attached Professional Services Agreement with SR Bray, LLC, dba Power Plus in the amount of \$50,000 for Electric Utility Engineering Services for the Electric Department.

GOAL STATEMENT

The proposed action will support the City's goal to provide safe, reliable, affordable, and environmentally sustainable electric service.

BACKGROUND

The Colton Electric Department's (Department) Engineering Division provides a variety of support services to the utility's Substation and Transmission/Distribution divisions, as well as to developers and customers for construction needs. These services include planning, design, budgeting, coordinating construction activities and providing service connections.

This work has generally been performed in-house by a utility designer and an associate engineer, or a contract engineering firm. In late 2010, the Utilities System Designer retired. Shortly thereafter the Utilities Associate Engineer resigned from the City, leaving the department without full time engineering and planning staff. With the slowdown in construction, the Department was able to meet much of its engineering needs with its then existing staff; one electrical inspector, two GIS personnel, and two part-time utility designers and some engineering consulting help. In March 2012, the two part-time utility designers had to resign due to changes in CalPERS regulations. Subsequently, the Associate Engineer position was removed for Fiscal Year 2012/13, and funding was included in the approved budget to contract with an engineering firm that could provide a wider range of services to the Department on an as needed basis.

In order to fill an immediate need for engineering services, the City's Purchasing Manager contacted sixteen engineering firms and requested proposals to provide electrical engineering services, on a limited basis, in April 2012. Four firms submitted proposals and were evaluated.

SR. Bray LLC, dba Power Plus, (SR Bray) was determined to be the most responsive and responsible bidder to meet the current needs of the Electric Department. A Professional Services Agreement for Electrical Engineering Services, in an amount not to exceed \$25,000 per fiscal year, was executed on May 1, 2012, under the City Manager's authority as established by Municipal Code 3.08.070. The term of that Agreement was for FY 2011-12 and FY 2012-13. The purpose of the Agreement was to assist the Department with a number of major projects within the City, while the Department was short personnel. The projects include the Colton Crossing Project and other projects with SANBAG and Caltrans, along with normal design and construction projects.

ISSUES/ANALYSIS

The Department continues to have an immediate need for engineering services for the above projects, as well as to provide some basic functions, such as attending regular Design Review Committee (DRC) meetings, and working with utility staff on design and planning procedures. Due to the current vacancies, the Department has needed the services of Power Plus more frequently than originally anticipated and has expended the \$25,000 authorized for FY 2012-13 in the May Agreement.

These engineering services are crucial to the operations of the Department, and staff has been satisfied with the work performed by SR Bray LLC, dba Power Plus. The Department is recommending the City enter into a new Professional Services Agreement, superseding the May 2012 Agreement, for Fiscal Year 2012-13, in an amount not to exceed \$50,000, with an option for the City to renew the Agreement for three additional one year periods under the same terms and conditions. In consideration for the new Agreement, SR Bray has agreed to a reduced hourly fee schedule from the May 2012 Agreement. This new Agreement and compensation amount will be in addition to the amount authorized in the May Agreement. As the Department is able to implement proposed reorganization and bring on a senior planner, the need to utilize the contract engineer will be reduced.

Colton Municipal Code Section 3.08.070 allows the City Council to award professional services contracts over \$25,000 and up to \$100,000 pursuant to the non-public project informal bidding procedure. The bidding process conducted by staff in April 2012, complies with this bidding requirement.

FISCAL IMPACTS

Funds are available for electrical engineering services in the approved FY 2012/13 Budget, in the Electric Department Engineering Division, Professional Services Account Number 520-8000-8002-2350-0923-000.
